Price increase from October 15th, 2018

Dear Customer,

In the past few days, our raw material suppliers, informed us about steep price increases for PET resins.

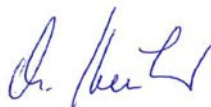

The higher cost of raw materials leaves us with no choice but to increase the prices for all Hostaphan[®] PET film types by 0.25 €/kg for all deliveries from October 15.

The strong market demand for PET resins is one of the main influences on the rise in raw material costs. We also see continued high market growth for PET films and we want to continue to remain your innovative and high performing partner of choice.

Your account manager will contact you in the next few days to discuss the increase with you.

Yours sincerely,

MITSUBISHI POLYESTER FILM GMBH
