
MITSUBISHI POLYESTER FILM GMBH JOINS BEPA, THE BATTERIES EUROPEAN PARTNERSHIP ASSOCIATION

Mitsubishi Polyester Film GmbH has officially joined BEPA, the Batteries European Partnership Association (BEPA), confirming its commitment to improve the competitiveness of the European battery industry

Counting more than 165 members, BEPA is a leading association dedicated to create a competitive, sustainable and circular European industrial battery value chain for stationary applications and e-mobility.

The BEPA members will work together to prepare Europe to manufacture and commercialise by 2030 the next-generation battery technologies that will enable the rollout of the zero-emission mobility and renewable energy storage.

BEPA represents the private side association of the BATT4EU Partnerships the co-programmed partnership on batteries launched by the European Commission under Horizon Europe. The partnership will mobilise more 925 million euros, to boost European research and innovation in the battery sector.

Mitsubishi Polyester Film GmbH will contribute to BEPA goals, by bringing in its expertise in biaxially oriented PET-films used for excellent mechanical and thermal properties in manufacture and process aid of batteries as well as providing high-performance solutions utilizing the Mitsubishi Chemical Groups wide range of products and technologies.
